## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 9-20 and 35-46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the claims a “parameter based mapper” is indefinite in scope. Clarification is requested. The applicant points to that specification which describes that a mapper file written in XML may be created for a particular target Enterprise Resource Planning (ERP) system to define a first set of variables with respective values into a second set of corresponding variables, so that the values can be passed to the second set of variables.

This paragraph is definitive for an Enterprise Resource Planning (ERP) XML parameter mapper. The claims however read on a parameter based mapper and the claims remain indefinite for mappers other than Enterprise Resource Planning (ERP) XML mappers.

. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Examples of the closest prior art include US Patent 5557780.
